## **REX AND MARGARET FORTUNE EARLY COLLEGE HIGH SCHOOL WITH COSUMNES RIVER COLLEGE**

Fortune School, in partnership with Cosumnes River College and Cal Poly, San Luis Obispo, will open a STEAM-based Early College High School in Fall 2017, starting with 9th grade. The Rex & Margaret Fortune Early College High School will be a small, autonomous school that blends high school and a coherent educational program, allowing scholars to earn a High School Diploma and up to two years of college credit in four years or less. Students will begin taking college courses as soon as they demonstrate readiness, and will be able to complete an Associate's Degree by the time they graduate from high school.

Fortune's Early College High School will focus on providing scholars with Science, Technology, Engineering, and Math combined with Arts education (STEAM) in order to position graduates to provide innovative leadership in the Sacramento region, an essential benefit to the new economy. We will fully integrate high school, college, and the world of work, allowing scholars to earn a High School Diploma and Associate's Degree while meeting A-G requirements for transfer to the University of California or California State University systems.
